KE provides Adult Day and Voc Hab services for people who have developmental disabilities throughout Northeast Ohio. We offer recreational activities, cultural and educational programming, exercise, day trips, volunteering, and nursing supervision - all provided in a safe and healthy setting. Our philosophy is that staying active and interacting with others is a major component to maintaining an individual's self-fulfillment and independence. By considering each participant's interests and needs, a variety of activities are planned on a daily basis.

Koinonia offers Adult Day and Voc Hab programming at two different sites, with one site located in Mayfield and one site located in Brooklyn Heights.

ADULT DAY SERVICES
Koinonia's Adult Day Program is a good fit for individuals who are unsure if they wish to seek employment, but who still want to enjoy a wide variety of engagement activities in and out of the center. Activities offered reflect each individual's interests and abilities, as well as his or her goals as outlined in the Individualized Service Plan (ISP). Individuals start their day in one of many program rooms. From there they might spend part of their day on a community outing, or working on activities of daily living, or socializing with peers. Educational curriculum is built into each day, including reading, writing, computer education, crafts, music, games, and exercise.

VOCATIONAL HABILITATION (VOC HAB)
Koinonia's Voc Hab program partners with our clients to help them find their path to employment, while building the skills necessary to achieve their goals. The program includes community volunteering, social skill training, interview skills, and the fundamentals necessary for finding and keeping a job.
